

Please do NOT expand LPFM service. Doing this would destroy the only station I listen to--Air 1 (88.7 FM in Arizona)--and leave a huge gap in radio: Christian Rock. As a teen, it is so hard to find music with a positive message. All of my friends listen to Air 1 as well, and it even has a hotline for those who need help, such as those considering suicide. Please do not take away this service to the community by expanding LPFM stations. Thank you.
